TURKEY? YES, BUT FEW! TOO SPECULATIVE, CLAIM

TERKEY may be the unofficial , national bird, but it calls forth no great warmth of affection from the men who make a business of handling fowls in the wholesale and retail trade. Where turkey talk is concerned, these men are nothing else but, cautious and sparing

Thus it is logical to arrive at the conclusion that the turkey is a highly speculative hird. As "stock" it might be classed with wildcar oil

There is speculation on both sides of the turkey question. Hoth the dealers and the consumers have a hand in this speculation, for while the dealers take chances on getting rid of their hirds, the cousumers take a chance of getting a turkey at one of the numerous furkey raffles that are carried on by lodges and other organizations. NERGEE DETONOX Gasoline eliminates detonation, that too-sudden explosion of certain elements found in ordinary gasolines. Detonation racks your motor and causes loss of power. You recognize it when your engine knocks or "pings." Energee DETONOX was developed by Pure Oil engineers as a non-detonating gasoline, which at the same time retains all other desirable qualities of a motor fuel.

## Hospitality-

When we think of Thanksgiving, Christmas, New Years—the glad days and the feast days — the days of good cheer — we think of hospitality.

That means, also, that we wish the home to look "just right."

It may be that you need only an "occasional" piece, or a few of the smaller lovely odd pieces that are finding such a ready sale these days with families that wish to BRIGHTEN UP the home—not only for the holiday season but for always.

We don't believe that we have ever had so many nice things for the home as you will find in our store right now. Since "The Home Should Come First" movement has become national in character manufacturers have vied with each other to produce beautiful, odd pieces, and much more beautiful staple furniture.

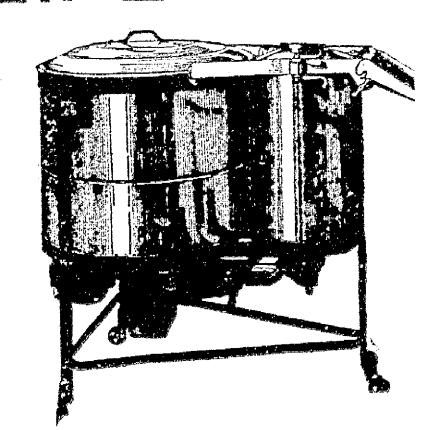

It's a pleasure to look around in Schaffner's now, and you are certainly welcome to do so.

## The NEW EASY WASHER

## Washes while it Dries

SMOOTHLY, quietly and quickly— the New Easy Washer will remove washday griefs forever from your home.

For the first time the New Easy gives you a washing machine that will wash one batch of clothes and dry another batch at the same time - without a wringer.

The new Easy Washer has two tubs one for washing, the other for drying. Each tub holds as many clothes as are equal to eight double sheets. While the large tub is washing one batch, the small tub dries another, and as a result of this unique feature washing time is cut in

Linens are never wrinkled by the Easy's marvelous new dryer. Buttons simply can't come off. There's no fric-

tion or strain on the clothes. If you must wash on a cold or rainy day you can run the Easy's dryer a little longer and start ironing at once.

Handles all the water

The new Easy makes its own soapsuds in forty seconds. It handles all the water for you without wasting a drop. It recovers the soapsuds from the clothes and returns them to the washtub. It sends the rinse and the blue waters back from the dryer to the rinse and bluing tubs. It even empties itself into the sink when you're all through washing.

Let us show you the wonders of this New Washer in your own home on your next washday. We will gladly do your next week's washing without charge or obligation to you. Those us now.

Keep Eliminative System Active Good Health Requires Good Elimination

TO be well one must keep the system free from the poisons of bodily waste. The kidneys are the blood filters. Sluggish function, however, is apt to permit a retention of these body toxins which tend to make one feel listless, tired and achy. A toxic backache is sometimes a symptom, with drowsy headaches and dizziness. That the kidneys are not functioning correctly is often shown by burning or scanty passages. More and more people are learning to assist their kidneys in this condition by the use of Doan's Pills, a stimulant diurctic. Doan's are used the world over. Ask your neighbor!

## Pot-Shotting for Crime's Causes.

We sincerely hope that nothing will impel Governor Donahey to offer criticism of that pertion of the annual report of the state elemency heard relating to responsibility for crime. It should be evident to the governor, as it undoubtedly was to all who read the report, that the board did its utmost to cover the ground. ## Don't Risk Pneumonia By Neglecting a Cold

If you have a cough or cold, don't neglect it during this pneumonia weather. A cough or cold paves the way for pneumenia because it irritates the linings of throat, chest and bronchial tubes, often the lungs themselves, if neglected too long. And it is in these inflamed linings—when a neglected cold has broken down your resistance—that dreaded pneumonia is quickest to start—often proving fatal in a few days. Bun't just dread pneumonia! ed medicine are absorbed by the lin-Take measures to prevent it, by get- ings of throat, chest and bronchial tog rid of a threatening cough or tubes just as ink is absorbed by a cold immediately-before pneumonia blotter.
